

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : 6,879,999 B2
DATED : April 12, 2005
INVENTOR(S) : Elmootazbellah Nabil Elnozahy

Page 1 of 2

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 7,

Line 34, claim 11 should read as follows:

11. A computer program product residing on a computer readable medium for responding to a client request for an object in a data processing network, comprising:

computer code means for determining whether a static object form response corresponding to the requested object is available;

computer code means for updating a header in the form response based on the client request responsive to determining that a form response is available:

responsive to determining that a form response is not available:

computer code means for generating a response to the client request by retrieving the requested object and performing network protocol processing on the retrieved object to generate header fields and append the header fields to the requested object;

generating a form response indicative of the generated response, wherein the form response includes the generated header fields; and

computer code means for storing the form response for use in responding to a subsequent request for the object.

Column 8,

Line 19, claim 21 should read as follows:

21. A server suitable for use in a data processing network, the server including processor, storage, and input/output means, the storage containing server executable instructions for responding to a client request for an object, comprising:

computer code means for determining whether a static object form response corresponding to the requested object is available;

computer code means for updating a header in the form response based on the client request responsive to determining that a form response is available;

responsive to determining that a form response is not available:

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 8 (cont'd).

computer code means for generating a response to the client request by retrieving the requested object and performing network protocol processing on the retrieved object;

computer code means for generating a form response indicative of the generated response; and

computer code means for storing the form response for use in responding to a subsequent request for the object.

Signed and Sealed this

Fifth Day of July, 2005

A handwritten signature in black ink, appearing to read "Jon W. Dudas". The signature is stylized with a large, looping initial "J" and a distinct "D".
